On May 07, 2022, the faculty of the department of chemistry participated in a program named 'research Model' through Google Meet. Mr. Vinay Sharma, the speaker for the program, is a leading researcher associated with medicinal chemistry. He is currently in the Technion Institute of Israel. He discussed that there search model is the theoretical image of the object of study. A model can be considered a useful way of describing or explaining interrelationships of ideas. He shared that there are four main types of methods for the collection of data. He emphasized more on the experimental research model in this session as he has worked on 'Antitumor Cytotoxicity' which is based on *Lysosome-Lysosome fusion*. This session was, of course, enriching and informative. The program ended with the vote of thanks given by Asst. Prof. Binay Yadav, HoD, and Department of Chemistry.
